

Notes on this wine list / Manifesto

This list is a reflection of what I consider to be some of the most interesting wines this region has to offer, along with some wines that have a special place in my heart. There should be something here for any palate, but some wines on here are proper funky. If **you feel lost, please ask.**

We focus on organic/biodynamic, artisanal producers that ideally are as close to us as possible. Many of our producers offer wine tastings and visits, and we are happy to help you to arrange this if you like.

The wines here are 7 EUR more expensive than the cellar door price. What this means is we don't make more money by selling you a pricier wine, but you get more value if you spend a bit extra.

Our wines by the glass change regularly. Please ask your server what is available. Feel free to pop upstairs to our wine machine

Lastly, I ask that you keep an open mind when trying a new wine. The producers on this list have a track record of high quality winemaking, and put a great effort into making every bottle. Give the wine time to evolve, and see how it adapts to each dish. I hope you enjoy! - Starri

O Organic B Biodynamic N Natural / Funky C Classic-Style

Vini Frizzanti / Bubbles

Tallero	Prosecco Treviso Extra Dry N.V. 200ml - 100% Glera	5
